

ACCOMPLISHMENTS REPORT

KEVIN JOHN A. JUNTILLA 31-G

HERVEN PONTANAR

SUPERVISOR

INTRODUCTION

I'm Kevin John A Juntilla, and I commenced my training at Teradyne on June 13, 2023, where I am currently assigned to the PBT-Assistant of Traffic Analyst, with an expected completion date of September 13, 2024.

Teradyne plays a pivotal role in advancing the functionality and efficiency of devices by automating critical manufacturing processes. Our mission revolves around leveraging robotics to streamline manual tasks, ensuring a swift return on investment and enabling individuals to achieve their highest potential. In the realm of electronic testing, we utilize Automated Test Equipment (ATE) to accelerate the time it takes for new electronics to reach the market, particularly in areas where performance and reliability are paramount.

Our unwavering focus on investments and efforts is dedicated to assisting businesses in producing high-quality goods quickly and cost-effectively. Fueled by our team's insatiable curiosity, we collaborate to solve problems and enhance competitiveness. Clients across various markets and businesses of different sizes rely on us to ensure that their products consistently meet design standards. Teradyne's steadfast commitment to cutting-edge testing and automation reflects our dedication to aiding clients in innovation and improving their overall quality of life.
